Volumetric Mayonnaise Dispenser

Volumetric Mayonnaise Dispenser

Description

The mayonnaise dispenser is made for volumetric dosing of liquid (milk, kefir, etc.) and viscous products in a plastic container (mayonnaise, ketchup, etc.)

The dispenser is made in compliance with sanitary standards used for food industry equipment.

All parts in contact with the products are made of stainless materials and are approved for use in the food industry.

Seals are made of food grade rubber.

Volumetric Mayonnaise Dispenser

Technical Specification:

Dosing Method.....	Volumetric
Dosing error, %.....	1
Dose volume, ml.....	10-500
Electric power supply, V / Hz.....	220/50
Air Pressure, MPa.....	0.6
Performance max	
l / hour.....	1800
doses / hour.....	3600
Overall dimensions, mm	
length.....	220
width.....	150
height.....	1000
Weight, kg.....	29
Number of operators.....	1

Full cycle engineering services

Food Machinery

Machinery for tires, rubber, plastics manufacturing

Machinery for the chemical and oil and gas industry

Machinery for the perfumery and cosmetic industry

Modernization and automation of production

Non-standart equipment

Production of spare parts, components, assemblies

Outsourcing services - repair and maintenance of equipment
