***Extruder «Guitar» with
a removable part of
the introduction and
distribution of jam***

Extruder «Guitar»

The extruder is designed for mixing ice cream with jam in the form of a spiral and extruding a product in the shape of a «Guitar». Installed in ice cream production lines.

Technical Specification:

Electric motor power, kW.....	0,18
Rotation speed of the electric motor shaft, rpm	1400
Overall dimensions, mm:	
length	355
width	210
height	577
Weight, kg	11
Electrical supply, V/Hz	220/380/50
Ice cream input	DN 25
Jam input, mm	10

This product can be manufactured according to the technical specifications of the customer, taking into account its predetermined parameters and features.

Full cycle engineering services

Food Machinery

Machinery for tires, rubber, plastics manufacturing

Machinery for the chemical and oil and gas industry

Machinery for the perfumery and cosmetic industry

Modernization and automation of production

Non-standart equipment

Production of spare parts, components, assemblies

Outsourcing services - repair and maintenance of equipment
