Engineering & Manufacturing

Jam station

Jam station

Entering liquid fillers (jam, caramel, topping) or decorating with cake dispensers, packers like FILMARK, ICEPACK, ORION, etc.

Features:

- High accuracy of dosing with the possibility of smooth correction of the dose simultaneously in all streams;
- The design includes a mixer that provides homogeneity of the product
- Quick-dissolving and easy-to-clean product lines.

Technical specifications:

Dosing Method	volumetric
Volume of the reserve tank, l	100
Electric power, V / Hz	380 / 50
Adjustable dose volume, ml per serving	up to 170
Performance, max:	
cycles / hour	1 800
number of doses / cycle	up to 6
Installed power of the electric motor, kW	0,25
Weight, kg, no more	120
Number of operators	1 operator

This product can be manufactured according to the technical specifications of the customer, taking into account its predetermined parameters and features.

Food Machinery

Machinery for tires, rubber, plastics manufacturing

Modernization and automation of production

Non-standart equipment

Production of spare parts, components, assemblies

**Outsourcing services - repair and maintenance of
equipment**
