***Set of equipment
for the production
of ice cream
in whipped glaze tubule
«LAKOMKA»***

Set of equipment "LAKOMKA"

Description

Set of equipment for the production of ice cream in whipped glaze LAKOMKA for any production line.

It is mounted on any technological line GRAM, TEKNOICE, TETRA PAK, VOJTA, etc.

The basic composition of the set of equipment:

- Dynamic distributor of ice cream;
- Dynamic distributor of whipped glaze;
- Extruder with displacement drive (one, two, three, four or five-linear);
- Cutting device "String";
- Control cabinet based on a programmable controller;
- HMI control panel.

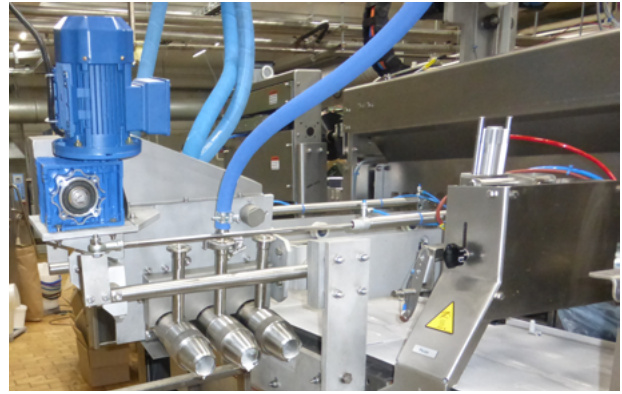

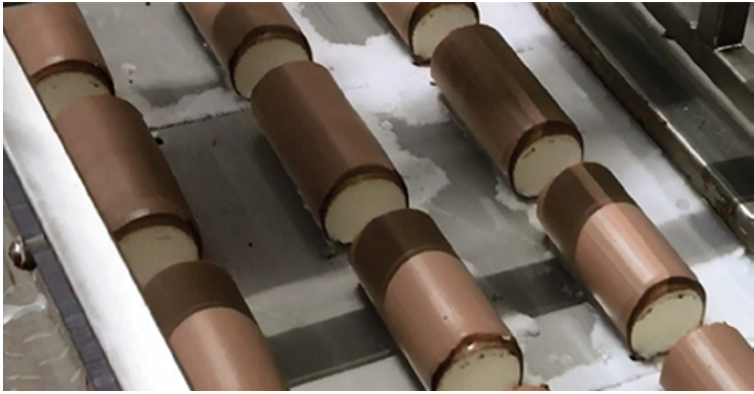

Technical Specification:

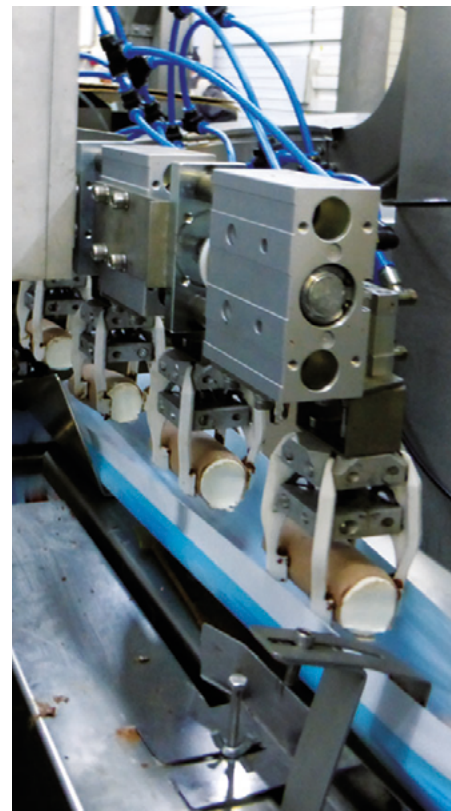

Serving Weight, gram.....	74
Length, mm	94 - 104
Diameter, mm	up to 45
Productivity, portions / hour	12 000

Set of equipment can be designed and manufactured to specific customer requirements (N - linearity of the extruder, the possibility of forming inside the ice cream rod of liquid fillers, sprinkling the surface of the tubule, the tubule on a stick).

Set of equipment "LAKOMKA"

Set of equipment "LAKOMKA"

Food Machinery

Machinery for tires, rubber, plastics manufacturing

Modernization and automation of production

Non-standart equipment

Production of spare parts, components, assemblies

**Outsourcing services - repair and maintenance of
equipment**

Global engineering solutions
