of ice cream in tube*

# The dispenser of ice cream in tube

The dispenser is designed for filling wafer tubes.

## Features:

- Automatic Feeding of tubes with a rotary drum from the hopper

## Technical Specification:

Dosing method .....	temporary
Dosing .....	from 2 sides at the same time 4 tubes
Operating mode .....	automatic / semi-automatic
Productivity, pcs / hour .....	4 000
Electric power supply, V / Hz .....	24 or 220/50
Compressed air pressure, MPa .....	0.4 - 0.6
Installation location .....	on the table
Overall dimensions, mm, not more than	
without flow distributor and hopper:	
length .....	571
width .....	470
height .....	700
with flow distributor and hopper:	
length .....	930
width .....	470
height .....	1 300
Weight, kg, no more .....	70

This product can be manufactured according to the technical specifications of the customer, taking into account its predetermined parameters and features.

We perform the manufacture of the dispenser on the sample of the tube.
