Manual Labeling Machine

Description

Manual labeling machine is designed for applying self-adhesive labels to glass bottles (from 0.1 to 3 lit.), PET bottles, as well as metal cans.

It is possible to use this equipment in pharmaceutical, chemical, food and cosmetic industries.

This product can be manufactured according to the technical specifications of the customer, taking into account its predetermined parameters and features.

Manual Labeling Machine

Technical Specification:

A type	manual
Productivity, pcs / h no more	600
Type of adhesive label	self-adhesive label
Label width, mm	10 - 200
Label reel diameter, mm	50 to 160
Direction of printing	horizontal layout
Overall dimensions, mm, no more	
length	550
width	445
height	170
Weight, kg, no more	13

Full cycle engineering services

Food Machinery

Machinery for tires, rubber, plastics manufacturing

Machinery for the chemical and oil and gas industry

Machinery for the perfumery and cosmetic industry

Modernization and automation of production

Non-standart equipment

Production of spare parts, components, assemblies

Outsourcing services - repair and maintenance of equipment
