Clipmaschine

Clipmaschine

Clipmaschine - a machine for sealing polymer, cellulose and protein shells with aluminum clips.

Features:

- clipmaschine provides the installation of two staples at the same time and cutting the jumper between the staples
- if necessary allows to lay a twine loop or twine

Technical Specification:

Operating modesemi-automatic

Drive mechanisms:

clipping pneumatic

clamping the shell manual

Sizes of staples, mm:

width14

diameter 2,5

height12, 14, 16

Air pressure, MPa 0,4 - 0,6

Location of the shell with the product horizontal

Overall dimensions, mm, no more

length1,240

width 650

height 2 000

Weight, kg, no more45

This product can be manufactured according to the technical specifications of the customer, taking into account its predetermined parameters and features.

Full cycle engineering services

Food Machinery

Machinery for tires, rubber, plastics manufacturing

Machinery for the chemical and oil and gas industry

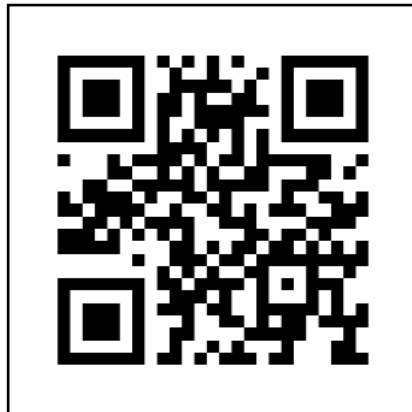

Machinery for the perfumery and cosmetic industry

Modernization and automation of production

Non-standart equipment

Production of spare parts, components, assemblies

Outsourcing services - repair and maintenance of equipment
